

Catholic Radio Mapping

Drawn by: Light of Life Radio Ministry www.LoLradio.org
[send comments/corrections to: info@LoLradio.org or call 304-598-0026]

Utilizing Google Maps

Areas Shown are the estimated radio propagation contours from FCC engineering database.

50 dBu and 0.5 mV/m contours [fair signal with a good radio and good antenna]

red areas - AM stations

blue areas - FM stations

orange areas – primarily non-English stations

yellow areas – stations that have Catholic programming <50% of the day

outlines – stations under construction / FCC permitted

Data Shown

- **Call Sign / frequency / Community of License / larger cities within range**
- **Ownership**
- **Station Name / Slogan**

- **link to web site**
- **network affiliation**

- **primary language if not English**

- **translator of prime station**
- **prime station with translator**

- **under construction – to be complete by date**
